Seeking a 2013 full time position focusing on UX design and front-end engineering.

Carnegie Mellon U. 2013
B.S. Human-Computer Interaction
B.S. Cognitive Science
GPA 3.40

EXPERIENCE

VENMO (NYC SUMMER 2012)

Designed and helped build Venmo's "logged out" web site in a 1.5 week design and code sprint.

Provided UX support and asset creation for Android and iOS teams.

Worked with 2 other interns on development of mobile friendly, ultra fast Backbone.js app.

YINZCAM (PITTSBURGH 2010 - 2012)

Design of iOS, Android, and Blackberry Apps alongside a lead designer. Automated the asset generation process through Photoshop scripting.

Designed and developed RockYourJersey an experimental app for the NHL Winter Classic, Super Bowl XLV, and Penn State Football. The app visualized where fans watched each event.

CMU CEE DEPARTMENT (CMU 2009 - PRESENT)

Led a three person group working to visualize data from the Economic Input-Output Life Cycle Assessment, which assesses the environmental impact of economic activity between sectors.

Designed a tool for college decision-makers to visualize their sustainability peer-groups by comparing themselves to other schools on environmental metrics.

COURSEWORK

Programming Usable Interfaces

Android Development

User-Centered Research and Design

Communication Design

Functional Programming (SML)

Cognitive Modelling

Entrepreneurship for Computer Scientists

SKILLS

ABILITIES

Highly skilled with Adobe CS5

Digital Photography (flickr.com/abhooopathy)

Good design sensibilities.

Strong writer. Samples available upon request.

TECHNOLOGY

In rough order of familiarity: HTML, CSS, JavaScript, SML, Ruby (Haml, Sass), Flex/ActionScript, Java, and PHP. I've used popular libraries built on these technologies, like jQuery, Wordpress, Rails, Android, and Backbone.
